*At all times and in all ages, people have treated involvement in new discoveries as consummate happiness*

Y. Gagarin

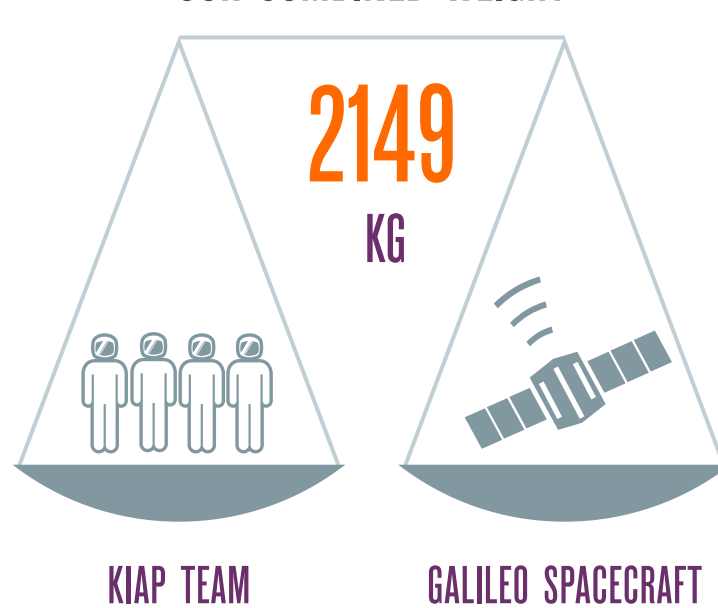

3 years is an important milestone in KIAP development and a good time to sum up the results. The main thing we have managed to accomplish over this time is creating a close-knit team and gain clients confidence. These 3 years have seen many interesting things happen – a challenge to make a successful start-up, ambitious projects, and recognition by international ratings. Over this period, our team has grown to 30 people, our client portfolio has increased by a factor of 50, and we have reached the final round of the prestigious Chambers Europe Awards for Excellence. Up ahead, there are still more interesting things, and in the meantime we have made this amusing infographic.
